Re: Vivian Davis' Dogs
(Two Brown Ones - One White One)

To Whom It May Concern:
This is in regards to an incident that occurred this morning, involving the above-mentioned dogs.

As I was rounding the last corner to my house, I noticed that those dogs were all out in the road. As I got closer, they all ran up to my car and I quickly stopped, because I couldn't see where any of them were. When I did see them I started to move, but as a result of this, the dogs would move as well. This happened at least three times. The last time the dogs chased me right up into my own yard.

As I got out of the car, I could see Shane Franks talking to the person who owns the chimney sweep truck. I

don't know what was said, but I am sure it involved those dogs.

As I was waiting for the school bus to pick up the neighbor kids I just wanted them to get on the bus safely. Jo Ann stopped to ask what I saw happened. I explained to her what had happened. Shane Franks had called her yesterday because those dogs were all on their lawn and they were afraid to come out of their house. Jo was going to talk to Vivian after she was done talking to me. She was also going to ask Shane and his partner to write a Letter of Complaint as well.

This needs to be dealt with as somebody may really be injured due to the actions of the dogs. As far as that goes other animals may be harmed by these dogs as well.

Thank you for anything you will do to take care of this situation.

Sincerely
Pamela Colley
