

Marshfield Energy and Climate Change Committee
Notes
3/10/08 Meeting

- 1) Attending: Lawrence, Anne, Andy, Rich
- 2) Opening 7:10 PM, Adjourn 8:30 PM
- 3) Business
 - a) Since Hillary was not there, we did not discuss the proposed web site as planned.
 - b) Andy affirmed he wanted to continue working on the municipal facilities. Rich will set up the reviews of the OSC and Highway Garage for the week of 3/17/08.
 - c) We discussed the idea of having a Marshfield Energy Day in the spring and decided to sponsor a tour of four homes using alternative energy systems on May 17, 2008. The homes tentatively are Angela Gibbons, Mike Fritz, Ed Smith (Cabot) and Dan Choderkoff. We will meet at OSC at 8:30 AM and begin the tour at 9:00AM expecting to be done by noon or 1:00PM. Anne and Lawrence will do the contacts and finish setting the tours up. Rich will assure the tour is publicized in the Field Notes.
 - d) We discussed the idea of having an energy workshop for students and homeowners in the early fall. Rich is to check into availability of leaders for this workshop.
 - e) Andy will look into the possibility of getting a grant to fund a feasibility study of hydro and wind sites in town by a consultant. If this looks possible, Rich will help get the grant application together.
 - f) Rich will set up a meeting with School officials, interested teachers and interested students to learn what has been/is being done to enhance energy learning at Twinfield and what additional efforts could/should be made. Anne will call Debra Stoleroff about this possible collaboration. Debra leads the Renaissance Project and the energy learning may fit nicely into that program.
